

1. The Creator and Science

- A. Cosmology-The universe had a cause, and uncaused causer. (Gen 1:3, Heb 1:3)
- B. Physics-The laws and constants of physics, making the earth inhabitable, suggest a Designer. (Gen 1:3; Heb 1:3)
- C. Astronomy-The incalculable stars and planets, and the earth being well-suited to view them, tell us of God. (Gen 1:14-19; Ps 19:1)
- D. Genetics-The information
- E. n in the DNA molecule testifies of a programmer. (Ps 139:13-16)
- F. Biology-The beautiful specificity of the plant and animal kingdom speak of an artist. (Rom 1:19-20); Ps 104)
- G. Biochemistry-The irreducible complexity of cell parts and functions point to a maker. (Ps 104:24; Col 1:17-18)
- H. Personality-The reality of personalities human beings, where mind is not the brain and heart is not the cardiac muscle, speak of a Personal Originator (Gen 1:26-27; 2:7)
- I. Christ-Jesus spoke of the Creator (Matt 19:4-6)

2. The Creation and Science

- A. Fossils point us to creation not evolution. (PS 104:5-9)
- B. Marriage points us to creation and Christ (Gen 2:18, 24)
